

READ ME FIRST;

The CD contains all documents in the foreclosure fraud. Please begin with #1, and move through the first numbered PDF files. The other files are referenced in the various motions and response documents. These clearly show the ongoing fraud being perpetrated against Colorado citizens, of which we can provide you with many victims.

This needs to be addressed, and WILL be... and those who show support against this fraud will be acknowledged, and those who ignore this fraud (which is being exposed in many other states) will be acknowledged as well...

Imagine being attacked and losing your home... and then image being on the street as a disabled veteran, with a disabled mother... then imaging it all is fraud and an attempt to make money...

The new government and military backed forces will be appraised of these docs... and all who were complicit...
