

Fellow Patriot,

Over the last few weeks, we've been tracking major developments in Mexico as they pertain to the continuing epidemic flood of illegal aliens, crime, and drugs across our southern border. What we've found amid these developments is VERY alarming... *in fact, scary.*

I'm not an alarmist, but I *am willing* to tell it like it is and share the raw facts about the roiling threats to our national security and sovereignty....

...and let me tell you, they are NOT getting better!

And as if things weren't already bad enough with a severe recession, rampant criminal activity, and illegal incursions into our southwestern states, things are about to get even worse.

Our fellow patriot and Minuteman columnist Tony Dolz has just published a groundbreaking expose on the impending threat that Mexico poses to our republic...revealing **new and dangerous developments** that have culminated in the last 18 months with Mexico assessed by our own U.S. military as profoundly unstable.

The Wall Street Journal has reported that the U.S. Joint Forces Command in Norfolk, Virginia "warned recently that an unstable Mexico 'could represent a homeland security problem of immense proportions to the United States.'"

The Los Angeles Times added that the report said Mexico must be "monitored alongside Pakistan as a 'weak and failing' state that could crumble swiftly under relentless assault by violent drug cartels."

The U.S. Joint Forces Command report was only one of several alarms being sounded

on the deteriorating security situation on our southern border.

Tony reveals:

"The Perfect Storm is brewing. Millions of refugees escaping war, hunger and violence in Mexico may storm our Southern border during the Obama first term. The Winds of Change threaten to align an Economic Depression of historical dimensions, massive unemployment and civil disorder against a sea of pressing refugees."

his timely report, Tony explains how the powerful drug cartels have overrun the Mexican government - at every level - and now have almost complete control of every aspect of Mexican society. We're not making this up! Consider the following escalations in Mexico in recent months:

- Drug use in Mexico has doubled since 2002.
- Civilian deaths in the drug war stand at 7,000 rivaling 9,000 in Iraq in the same 12 month period.
- Armed Mexican kidnapers are snatching victims in Phoenix, AZ, for ransom, turning the city into the "kidnap capital" of the U.S.
- The cities of Tijuana, Ciudad Juarez, Reynosa and Monterrey are virtually under drug cartel control and many other cities are teetering.

And that's just the tip of the iceberg!

If you're like me, you're wondering what our federal government is going to do about it...

Great question! Shortly after the inauguration of Barack Obama, Minuteman PAC Honorary Chairman **Chris Simcox** and Minuteman Civil Defense Corps Vice-President **Carmen Mercer** hand-delivered to the White House a comprehensive plan to deploy U.S. troops along the southern border to effectively shut it down and prepare for the worst-case-scenario in Mexico.

Well...it seems there are those in the Obama administration who have begun considering our advice in the last week, with indications that they just might have to follow much of

our plan. Or perhaps -- *despite the fact that the Obama administration's pro-amnesty agenda is diametrically opposed to our border-security, national sovereignty principles* -- they know something about the coming catastrophe that they're not telling us!

As the saying goes, "*their actions speak so loudly, we can't hear a word they're saying.*" And indeed, recent events within the Obama administration are revealing quite a bit about the Mexican crisis!

Additional details in Tony's expose:

"Fresh from his rushed meeting with Mexican military leaders on Friday, Joint Chiefs of Staff Chairman Adm. Mike Mullen, met with President Barack Obama today on a week-end briefing on the probabilities of a Mexican government collapse and United States military options... Millions of Mexican "refugees" may overrun the Southern border, if not in 2009, then at some point within the first Obama term, U.S. intelligence sources speculate... Secretary of State Hillary Clinton met with key members of the House Select Committee on Intelligence last Thursday immediately following her first overseas trip since her nomination was approved. Clinton's opening remark was that the greatest threat to our internal security was the Mexican border and the possible collapse of the Mexican government."

Folks this is REAL! And it may be the greatest threat to our national security and sovereignty we have ever faced as a nation! That's why Minuteman PAC is stepping up our efforts to put critical pressure on leaders BOTH in Washington, D.C. and in the states to prepare for this disaster by putting troops along the border NOW!

If we, as a nation, are not prepared for a flood of millions of Mexican refugees, billions of dollars in drugs, third-world diseases, rampant crime waves and more, then we'll be forced to **face down this threat as individual citizens...** defending our homes and communities one by one.

We've done it before and we'll do it again, but it WILL be a *long, hard road that will cost us MANY LIVES.*

That's why we need your continued support as we lobby our leaders and keep the pressure on them to ACT and to act NOW! Mexico is verging on collapse into complete anarchy, run by the lawless and blood-thirsty drug cartels. And without a Mexican military to slow them down, both criminal gangs and desperate refugees will spill over in massive numbers across the porous U.S. border, and into our cities and neighborhoods.

The Roman Empire fell in precisely the same way...BECAUSE IN THEIR PRIDE AND ARROGANCE, THEY REFUSED TO SECURE THEIR BORDERS!

The United States of America is the lone superpower in the world -- just as Rome was -- and we can fall just as easily...

...that's why we MUST stand now -- liberal and conservative -- PATRIOTS ALL, to protect our sovereignty, our communities, our families.

Folks, this is as real as it gets! Get your [FREE report](#) and help Minuteman PAC force our government's hand! Congress and the Executive branch are sworn "to protect and defend" these United States. Will they act?

For the republic,

P.S. Mexico is on the verge of collapsing under the violent turf battles and deep corruption of the drug cartels. The police, the military, and the Mexican government have been bought off by international crime syndicates and a Mexican drug-families cartel system that *pumps \$140 billion from the drug trade every year!* They don't stop at our southern border; their ruthless criminal violence has already been identified in over 200 major U.S. locales, and threatens to pour into more American towns and cities and take them over as well...
